

ADVANCE® Medial Pivot Surgeon Events 2010

Wright Medical will be supporting several ADVANCE® Medial Pivot events in 2010 designed for orthopaedic surgeons with a specialty in Total Knee Arthroplasty to attend. These educational events have a surgeon-led faculty and consist of short presentations, workshops and course dinner with discussion. There is also a strong element of surgical observation, demonstrating the use of the ADVANCE® Medial Pivot knee system. These events have restricted numbers of participants to ensure the best use of surgical observation and discussion. Registration is via your Wright Medical representative.

Dates for 2010:

Ghent, Belgium: 11th – 12th February
Prague, Czech Republic: 12th – 13th April
Prague, Czech Republic: 10th – 11th May
Ghent, Belgium: 16th – 17th September
Prague, Czech Republic: 4th – 5th October
Larrissa, Greece: 4th – 5th November

Registration

Please contact your local representative to register interest to attend. Attendance to this event is by invitation and prior registration.

Compliance

Wright Medical is obliged to follow the EUCOMED and other industry-wide codes of ethical business conduct. We therefore advise delegates that these medical education meetings are restricted to healthcare professionals only. Wright Medical cannot therefore make arrangements or provide services such as hotels, meals etc to other attendees, such as delegate partners or other persons not directly involved in the meeting. We respectfully ask surgeon delegates in helping Wright Medical to fully comply with our ethical responsibilities by making their own arrangements if for example, others wish to accompany them.

British Orthopaedic Association CPD points applied for

Course Overview

Wright Medical in conjunction with Professor Sosna and his team, support several two day surgeon educational courses. These features the ADVANCE® Medial Pivot Total Knee System in primary application. There is a strong focus on discussion with the faculty and multiple surgery observations for the delegates with Professor Sosna and the Motol University Hospital as the host.

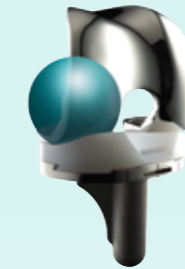

Day 1: Monday 4th October 2010

With the option of arriving the day before or on the morning of Day 1, the course starts with registration and the option of buffet lunch. The afternoon has faculty presentations on the ADVANCE® Medial Pivot Total Knee System, surgical technique, hints & tips and clinical results. A surgeon-led workshop concludes the presentations and is followed by a course dinner and opportunity for discussion. Each event also aims to have guest surgeon speakers attend.

Day 2: Tuesday 5th October 2010

After hotel check-out, the group departs for Motol University Hospital. Surgeon delegates have the opportunity to attend the operating room with Professor Sosna and his team to observe multiple ADVANCE® Medial Pivot Total Knee System surgeries. There is the opportunity for discussion, before afternoon departures.
